## Product description

### Profiled sheet T20-30W-1090

Profile T20 provides a straight lined solution for versatile roofing needs, ranging from modern private houses to refurbishment of rural buildings. Due to the linear and rigid form of the sheets, Profile T20 is aesthetically pleasing and easy to install, not only on new constructions, but also on existing rafters in renovation applications. A typical application for Profile T20 premium is a modern functional style building requiring a slick and streamlined exterior finish, whereas Profile T20 standard is mostly applied in the agricultural segment for a variety of building types, such as, granaries, barns, silos as well as the main building of the complex.

## Product applications

- detached houses
- terraced houses
- residential multi-storey buildings
- recreational dwelling
- agricultural construction
